Subject: FW: NECEC Updated Section 404 CWA Application Package

Hi Kate,

Here is what we received from the consultant back in July. We have downloaded all of the files. We did not receive a response directly from the Corps regarding our comment letter with the exception of a short email thanking us for our comments. The revised permit application is ~ 600 pages. It might be best for the Corps to decide on this. I will reach out to them today.

Beth

Jay:

On behalf of Central Maine Power Company (CMP), please find an updated application and associated attachments for the New England Clean Energy Connect (NECEC) project available through download via the weblinks below. This updated application package was prepared in response to the U.S. Environmental Protection Agency's (USEPA) April 25, 2019 comments in response to the USACE Public Notice issued for the Project and the USACE's May 15, 2019 additional information request.

Please notify me if you have any problems accessing these files.

Thank you,

Mark Goodwin
